

# Physical and Occupational Therapy Services and Providers

**Exclusive Provider:** Therapy Care Network (TCN) is the exclusive provider of Physical and Occupational Therapy (PT/OT) Covered Services for Hill Physicians Enrollees. TCN locations are listed in the following table. Enrollees may obtain services from any TCN location listed in the table, subject to the Referral policies set forth in this section.

**Authorizations:** PT/OT services that are not provided by the exclusive provider, TCN, require an Authorization.

**Referrals:** PT/OT services require a Referral from the Enrollee's PCP. Referrals also may be initiated by specific Hill Physicians specialists, as outlined in the Referrals section of this manual.

**Benefits Coverage:** PT/OT benefits vary by Health Plan and by benefit plan. Therefore, always verify benefits prior to initiating a Referral. PT/OT Covered Services are considered medically appropriate for the treatment of pediatric and adult musculoskeletal deficit as a result of orthopedic and acute neurological conditions resulting from a recent injury or illness where there is an expectation that the condition will improve in a reasonable period of time, generally defined as sixty (60) days.
